TABLE OF CONTENTS TO VOLUME 64

January–April 1970

ARNOLD, RICHARD, A comparison of populations of the polymorphic landsnail *Cepaea nemoralis* (L.) living in a lowland district in France with those in a similar district in England 589–604

ASHMAN, R. B., The compound structure of the R^{st} allele in maize 239–245

CALVO, J. M. and H. E. WORDEN, A multisite-mutation map of the leucine operon of *Salmonella typhimurium* 199–214

CHAI, C. K., Selective breeding for thyroid^{131} I uptake in mice 29–40

EICHER, EVA M., The position of *ru-2* and *qv* with respect to the *flecked* translocation in the mouse 495–510

EISEN, E. J., J. E. LEGATES and O. W. ROBISON, Selection for 12-day litter weight in mice 511–532

ENGLERT, DUWAYNE C. and A. E. BELL, Selection for time of pupation in *Tribolium castaneum* 541–552

ESSER, KARL and WALTER MINUTH, The phenoloxidases of the ascomycete *Podospora anserina*. VI. Communication. Genetic regulation of the formation of laccase 441–458

GEORGE, WILLIAM L., JR., Dioecism in cucumbers, *Cucumis sativus L.* 23–28

GRELL, THODA F., The time of initiation of segregaitonal pairing between nonhomologues in *Drosophila melanogaster:* A reexamination of w^{m4} 337–365

KASHMIRI, S. V. S. and S. R. GROSS, Mutations affecting the regulation of production of the enzymes of leucine synthesis in Neurospora 423–440

KEMPTHORNE, OSCAR and EDWARD POLLAK, Concepts of fitness in Mendelian populations 125–145

KERMICLE, J. L., Somatic and meiotic instability of *R*-stippled, an aleurone spotting factor in maize 247–258

LEVISOHN, REUBEN, Phenotypic reversion by hydroxylamine: a new group of suppressible phage T4 *r*II mutants 1–9

MARKOWITZ, ELEANOR HIMOE, Gamma ray-induced mutations in *Drosophila melanogaster* oocytes: the phenomenon of dose rate 313–322

MARTINEZ, MARLY NAPP and ANTONIO R. CORDEIRO, Modifiers of color pattern genes in *Drosophila polymorpha* 573–587

METZENBERG, ROBERT L. and SANDRA K. AHLGREN, Mutants of Neurospora deficient in aryl sulfatase 409–422

MOORE, R. W., E. J. EISEN and L. C. ULBERG, Prenatal and postnatal maternal influences on growth in mice selected for body weight 59–68

MOTTINGER, J. P., The effects of X rays on the bronze and shrunken loci in maize 259–271

MURATA, MOTOI, Frequency distribution of lethal chromosomes in small populations of *Drosophila melanogaster* 559–571

NASH, DAVID, The mutational basis for the "allelic" modifier mutants Enhancer and Suppressor of Hairless of *Drosophila melanogaster* 471–479

OHTA, TOMOKO and MOTOO KIMURA, Statistical analysis of the base composition of genes using data on the amino acid composition of proteins 387–395

OHTSUBO, EIICHI, Transfer-defective mutants of sex factors in *Escherichia coli*. II. Deletion mutants of an F-prime and deletion mapping of cistrons involved in genetic transfer 189–197

OHTSUBO, EIICHI, YUKINOBU NISHIMURA and YUKINORI and HIROTA, Transfer-defective mutants of sex factors in *Escherichia coli*. I. Defective mutants and complementation analysis 173–188

OKADA, IKUO and R. T. HARDIN, An experimental examination of restricted selection index, using *Tribolium castaneum*. II. The results of long-term one-way selection 533–539

OLIVIERI, G., G. AVALLONE and L. PICA, Sperm competition and sperm loss in *Drosophila melanogaster* females fertilized by $Y^{S}X \cdot Y^{L}/0$ males 323–335

RIZKI, T. M., ABBAS SOLIMAN, R. M. RIZKI, THOMAS B. FRIEDMAN and SANDRA K. HEALY, Ultrastructural effects of a suppressor mutation in Drosophila 459–469

RUSSELL, LIANE BRAUCH and CLYDE SAYLORS MONTGOMERY, Comparative studies on X-autosome translocations in the mouse. II. Inactivation of autosomal loci, segregation, and mapping of autosomal breakpoints in five T(X;1)'s 281–312

SANDERSON, KENNETH E. and CLIFFORD A. HALL, F-prime factors of *Salmonella typhimurium* and an inversion between *S. typhimurium* and *Escherichia coli* 215–228

SANDLER, L., The regulation of sex chromosome heterochromatic activity by an autosomal gene in *Drosophila melanogaster* 481–493

SHOCKLEY, THOMAS E. and ROLLIN D. HOTCHKISS, Stepwise introduction of transformable penicillin resistance in pneumococcus 397–408
SOFAER, J. A., and C. J. MACLEAN, Dominance in threshold character. A. comparison of two Tabby alleles in the mouse 273–280
STAHL, FRANKLIN W., JEAN M. CRASEMANN, CHARLES YEGIAN, MARY M. STAHL and ATSUO NAKATA, Co-transcribed cistrons in bacteriophage T4 157–170
STAHL, FRANK and CHARLEY STEINBERG, Appendix: On the effect of finite input on the (*trans/cis*) yield ratio in bacteriophage complementation tests 171–172
TAKANO, ISAMU and YASUJI OSHIMA, Allelism tests among various homothallism-controlling genes and gene systems in Saccharomyces 229–238
TANTAWY, A. O. and M. R. EL-HELW, Studies on natural populations of Drosophila. IX. Some fitness components and their heritabilities in natural and mutant populations of *Drosophila melanogaster* 79–91
THOMAS, D. L. and D. W. CRUMPACKER, Dynamics of chromosomal polymorphism and genetic load: an application of the two-locus multiplicative model with heterosis 367–385
TIMON, V. M. and E. J. EISEN, Comparisons of *ad libitum* and restricted feeding of mice selected and unselected for postweaning gain. I. Growth, feed consumption and feed efficiency 41–57
TURNER, JOHN R. G., Some properties of two-locus systems with epistatic selection ... 147–155
VOLPE, E. PETER, Chromosome mapping in the leopard frog 11–21
WALLACE, BRUCE, Spontaneous mutation rates for sex-linked lethals in the two sexes of *Drosophila melanogaster* 553–557
WATANABE, TAKAO K. and CHOZO OSHIMA, Persistence of lethal genes in Japanese natural populations of *Drosophila melanogaster* 93–106
WILLS, CHRISTOPHER, JOHN CRENSHAW and JOSEPH VITALE, A computer model allowing maintenance of large amounts of genetic variability in Mendelian populations. I. Assumptions and results for large populations 107–123
WONG, W. C. and W. J. BOYLAN, Intrapopulation selection and correlated response in crossbreds of *Tribolium castaneum* 69–78
